# Health Check Report Card

This tool is easy to use and will help you develop healthy habits such as healthy eating and increased physical activity. It will also help you to balance the amount and type of foods you eat.

**Instructions:** Please complete the Health Check Food Report Card each day for 1 week. Use the Go, Slow/Stop Foods, and Fruit and Vegetable lists to help you. Each food from the lists is worth one point each. For physical activity, place a number from 2 – 8 corresponding to the length of time for physical activity. Use the Physical Activity List to help you. At the end of the week, add the numbers in each category for each day and place the number in the “weekly total” box. If you reached your goal for a particular category, place a sticker in the “I reached my goal!” box.
